Center for Veterinary  
Orthotics & Prosthetics

## To Place Your Order:

1. Complete OrthoPets Patient Referral Information Form
2. Send cast molding to OrthoPets along with paper work

\*OrthoPets Veterinary Orthotics & Prosthetics Fabrication Center will review the documents and cast-molding and will contact you promptly to initiate your patients custom prosthetic/orthotic solution.

## Checklist for OrthoPets:

- 1) Cast Molding.
  - Ensure that the cast molding has been taped together and the patient first and last name has been written on the cast molding.
- 2) Soap Notes.
  - Ensure that any relevant Soap notes that pertain to the injury and project that OrthoPets will be assisting you with.
- 3) Customer or vet has signed OrthoPets Customer Contract. Send Copy of Contract.
- 4) Patient Referral Form
  - This is the reverse side of this document. Please ensure that all information is completed.
- 5) Device Measurement Form
- 6) Do you have Digital Radiographs of the affected limb(s)?
  - If so, please email or send a Disc containing any relative Radiographs.
  - If not, please do NOT send your hardcopy film.
  - \*We may request the hardcopy film at a later date.

## Additional Case Information
